

EXTERIOR HARDSCAPES

Homeowners and businesses spend thousands of dollars on landscaping each year yet simply “accept” that their exterior concrete is plain, gray or even old, stained and deteriorated. With Exterior Decorative Architectural Overlays, we can provide solutions that will transform your existing concrete into beautiful finishes that are not only aesthetically appealing but actually stronger and more resistant to salt, staining, freeze/thaw and even traffic and wear.

elite crete systems

BENEFITS INCLUDE:

- Unlimited color, design, pattern and texture options (yes plain gray is an option too).
- Ultra durable and long lasting.
- Permanently applies directly to your existing new or old concrete surfaces.
- Cost is much less than you think and less than pavers, stamped concrete, brick, stone, etc.
- Typical applications are completed in only a few days with little or no inconvenience.

SERVICES WE PROVIDE:

As the leading manufacturers of products for decorative concrete finishes and seamless flooring we have over three decades of experience in:

- Manufacturing and engineering
- Installations
- Training
- Product development
