## 4 First aid measures

### 4.1 Description of first aid measures

#### After inhalation:

If breathing becomes difficult, remove victim to fresh air. If necessary, use artificial respiration to support vital functions. Seek medical attention if breathing difficulty continues.

#### After skin contact:

Wash skin thoroughly after handling. Seek medical attention if irritation develops and persists. Remove contaminated clothing. Launder contaminated clothing before re-use.

#### After eye contact:

If product enters the eyes, open eyes while under gentle running water for at least 15 minutes. Seek medical attention if irritation develops.

#### After swallowing:

If product is swallowed, call physician or poison control center for most current information. If professional advice is not available, do not induce vomiting. Never induce vomiting or give diluents (milk or water) to someone who is unconscious, having convulsions, or who cannot swallow. Seek medical advice. Take a copy of the label and/or MSDS with the victim to the health professional.

### 4.2 Most important symptoms and effects, both acute and delayed.

Coughing, Allergic reactions, breathing difficulty, gastric or intestinal disorders, dizziness.

#### Hazards:

Danger of impaired breathing.  
Danger of gastric perforation.

### 4.3 Indication of any immediate medical attention and special treatment needed:

If swallowed, gastric irrigation with added, activated carbon.

#### Medical supervision for 48 hours.

Treat skin and mucous membrane with antihistamine and corticoid preparations.

## 5 Firefighting measures

### 5.1 Extinguishing media

#### Suitable extinguishing agents:

CO<sub>2</sub>, Carbon dioxide, foam, dry chemical, halon, water spray, sand, limestone powder. Fight fires with water spray or alcohol resistant foam. NOTE: No unsuitable extinguishing agents known.

### 5.2 Special hazards arising from the substance or mixture:

Formation of toxic gasses is possible during heating or in case of fire.

### 5.3 Advice for firefighters:

Incipient fire responders should wear eye protection. Structural firefighters must wear Self-Contained Breathing Apparatus and full protective equipment. Isolate materials not yet involved in the fire and protect personnel. Move containers from fire area if this can be done without risk; otherwise, cool with carefully applied water spray. If possible, prevent runoff water from entering storm drains, bodies of water, or other environmentally sensitive areas.
