# TD.802 – TECHNICAL DATA: BACK-TRACK™ 60S Anti-Slip Additive for Coatings Revised: 3/16/2023 Version: 1.3

Product Class: High Molecular Weight Polyethylene Powder

### **Description:**

BACK-TRACK™ 60S is a long wearing, anti-slip additive, suitable for use in most clear and pigmented 100% solids coatings and approved single component sealers. Environmentally friendly, non-hazardous, safe to use in all FDA, USDA and CFIA compliant required environments.

BACK-TRACK™ 60S will flex and recover offering longer life than typical silica sand or aluminum oxide that can be crushed or fractured and wear down in high traffic areas. BACK-TRACK™ 60S can be used with solvent based sealers and directly incorporated at the mix stage and roller applied.

## **Typical Uses:**

- -Resinous coatings and sealers
- -Can be used as a one coat non-slip application
- -Parking garages and loading docks
- -All flooring areas requiring non-slip safety performance

# **Key Features:**

- -FDA, USDA, and CFIA compliant
- -Environmentally friendly
- -Non-hazardous, non-corrosive, and non-flammable
- -Long wearing, slip resistant finish

### Add Rates:

- For resinous coatings: up to 32 oz / 3 gallon kit
- For single component sealers: up to 32 oz / 5 mixed gallons
- For single component urethanes: up to 32 oz / 5 gallons
- For two component urethanes: up to 16 oz / 3 gallon kit

## Available Packaging:

32 oz. jars

## **Physical Properties**

Appearance and odor Application temperature Tensile strength Naturally white powder, odorless Ambient up to 100° F / 38° C ASTM D638 >4200 psi / 300 kg/cm<sup>2</sup>

Elongation ASTM D638 >500%
